FIND THE RIGHT AWNING FOR YOUR RECREATIONAL VEHICLE

 **DOMETIC** **OUTDOOR**

WHAT A DOMETIC AWNING DOES FOR YOU

When travelling in your camper vehicle you have the privilege of being free to stop at the most beautiful places. Simply turn off the ignition, get the table and chairs out, and enjoy the marvelous view. A Dometic awning gives you added pleasure: It turns the area in front of your vehicle into your personal mobile patio, which will give you many relaxing hours!

The awning provides shade as well as protection against rain, wind and weather and it can do so much more. With the right accessories you can quickly create an extra living or sleeping room for your mobile home, complete with windows, doors, curtains, fly screens and lighting.

THE PERFECT AWNING FOR EVERY DEMAND

Manual or with a motor

Dometic manual awnings are operated with a crank, which is included in the delivery kit. The motor-operated electric awnings come as standard with a remote control.

Remote control

All electric awnings come standard with a remote control for convenient operation at the touch of a button.

S-flow housing design

Dometic's design language: elegant appearance with clean lines and no visible screws (PW 1100)

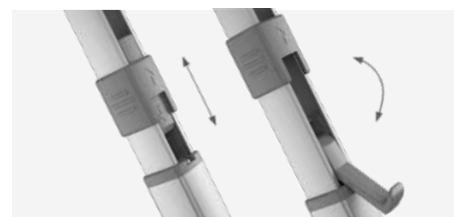

Compact housing

The size of the awning depends on the vehicle length and weight is another factor that needs to be taken into account. The longer the awning is the heavier it will be, of course. The spectrum ranges from 7.3 kg for the smallest models to 58 kg for the big ones. That means Dometic awnings are still lighter and more compact than comparable products of our competitors.

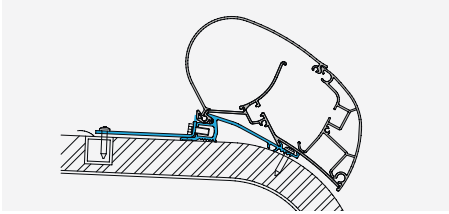

Aluminium end caps

the end caps on the models PW 1500 and PR 2500 are made of 100 % aluminium. This means the Dometic awning is more resistant against shock and impact.

Patented easy lock

prevents the support legs from falling down during set-up and fastens them in place to keep the awning in the set height position

Awning adapters

Vehicle walls and roofs are, among other things, design elements. That means they can have different shapes. With a comprehensive range of adapters Dometic ensures that the vehicle and the awning are perfectly coordinated, so you will get impeccable installation results.

Accessories

Our accessory range gives you a whole world of possibilities. For example, you can add side walls for additional protection, or complete awning tents to get an extra room in front of your vehicle.

Patented slide-out-supports

For ergonomic setup in upright posture (PW 1100)

Patented tension rafter

On all PW 1100 awning models, the tension rafter can be stowed away in the front rail after use. This saves precious space in the vehicle, and it also helps avoid damage to the tension rafter.

Telescopic crank

The Telescopic crank is included for all manual awnings. It can be easily adjusted to the vehicle height for ergonomic handling, or retracted for space-saving storage.

WHICH AWNING FITS YOUR VEHICLE?

4 easy steps to find your awning

Small or large caravan, motorhome or campervan – Dometic has a tailor-made awning solution for every demand. The following pages give a general overview of the available options. Our awning guidebook will then guide you, step by step, to the awning model which fits best. Your choice will depend on the construction of your vehicle and, of course, on how much comfort you want.

Here are the most important criteria to consider before you take your buying decision:

- 1. Find the correct vehicle specific adapter from the list on page 36 - 41**
- 2. Choose your awning model that fits your adapter. Model variations explained on page 12 - 19**
- 3. Ensure that you choose the correct awning length for your vehicle.** Your awning length should be chosen to ensure that any accessories fitted such as a camproom do not hinder the use or openings of any doors, lockers and windows
- 4. Choose awning colour**

CHOOSE AWNING COLOUR

Dometic wall and roof awnings are available in two housing colours: anthracite and white. Dometic RevoZip bag awnings are contained in a white case.

Here is a short overview

Revo Zip bag awning: white
PW 1100 wall awning: anthracite / white
PW 1500 wall awning: anthracite / white
PR 2000 / PR 2500 roof awnings: anthracite / white

High-quality awning fabrics

The Horizon Grey awning fabric we are using for our wall and roof awnings consists of a high-quality vinyl material with a transparent acrylic coating. UV-resistant, rot-proof and washable, it has all it takes for a long life expectancy. The awning is made from a single piece of fabric, so there are no seams that might leak or gather dirt over time.

Our RevoZip bag awnings come with a grey awning fabric featuring an attractive print. The high-quality, colourfast material is 500 g/ m² weatherproof and fitted with an anti-scratch coating for excellent durability.

DOMETIC REVO ZIP

Bag awning for caravans and motorhomes

The Dometic Revo Zip bag awning, as the name reveals, is contained in a zipped bag that simply slides into the existing tent rail of your caravan or motorhome. No drilling, no bolting! Your Revo Zip awning can be left permanently attached to the vehicle, freeing up storage space and speeding up set-up. Once fitted, just open the

bag zip, roll out the awning and deploy the two front legs and the two rafters – it's as simple as that. Take down is just as quick. If you are looking for more than just shade, you can upgrade your Revo Zip awning with the perfectly matching Privacy Room.

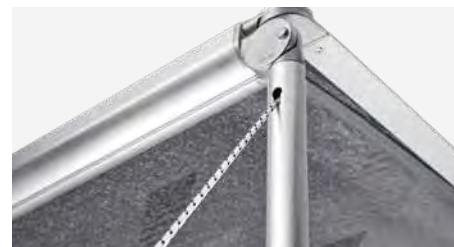

Attractive printed roof

With anti-scratch film for excellent durability

Strong frame

Extra strong, durable, adjustable aluminium frame

Complete package

Complete with guylines and pegs

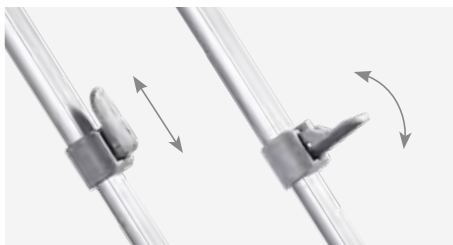

Benefits of Revo Zip

- Quick and simple installation without drilling – simply slides into the tent rail of the caravan or motorhome
- Set-up and take-down in a matter of minutes – legs and roof rafters fold out of front rail
- High-quality, durable awning fabric – 500 g/m² weatherproof and colourfast with anti-scratch coating
- Extra strong, adjustable aluminium frame
- Frees up interior storage space as the awning stays connected on the outside
- Seven sizes available – for caravans and motorhomes with a rail height of up to 280 cm
- Optional accessories: privacy room, sun screen, aluminium support rafters

PERFECTWALL PW 1100

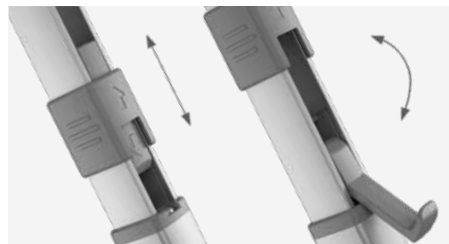

The smart awning

The sun is beating down and there's no shade in sight? It's drizzling, but you want to enjoy your coffee outdoors? Then it's time for your smart wall awning to enter the scene. The Dometic PerfectWall PW 1100 can be set up (and dismantled) faster, safer and easier than any awning you have seen before. Patented technology – exclusively available from Dometic – makes it happen. No need to bend down or reach up, no hassle whatsoever. Your Dometic PerfectWall gives you unprecedented ease, so you can enjoy the lovely view sooner.

- Easy, ergonomic setup with patented slide-out support legs
- Safe handling – redesigned easy flipper locker system secures the support legs
- Space-saving storage of the tension rafter in the leadrail
- Newly designed awning housing without visible screws
- Lengths from 2.6 to 4.5 m, extensions from 2.0 to 2.5 m
- High quality, one-piece awning fabric – no welding seam
- Telescopic crank
- Wide choice of awning adapters for different types of vehicles

Patented slide-out-supports
or ergonomic setup in upright posture

Patented easy lock flipper
Secures the support legs in place – no accidental unlocking possible

Patented tension rafter
stored away in the front rail after use to save space and avoid damage to the tension rafter

REINVENTION OF A CLASSIC

Dometic PerfectWall PW 1100 awnings come with several patented features for enhanced convenience. The support legs slide out on either side of the shapely housing for easy and ergonomic setup. The Patented easy lock flipper secures them firmly in place. The tension rafter, which gives the fabric extra tension, can be stored in the lead rail after use (4 and 4.5 m).

Slide-out support legs:

Easy setup from the corner of the awning, ergonomic handling without bending or stretching, secure hold also on uneven ground

Dimensions

Length (m)	Extension (m)	Weight (kg)	Length (m)	Extension (m)	Weight (kg)

Elegant housing design

Dometic's design language: elegant appearance with clean lines and no visible screws

Telescopic crank

For manual operation of the very smooth running gear

Colour options

The awning fabric is made from hard-wearing vinyl material with a transparent acrylic coating

12-volt model
with remote control

PERFECTWALL PW 1500

Robust electric wall awning – also for very large vehicles

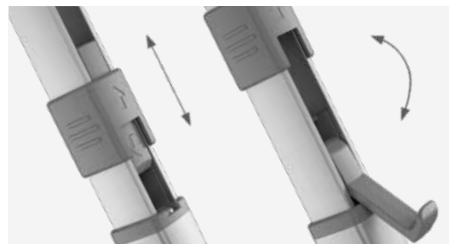

The Dometic PerfectWall PW 1500 comes with a fully integrated 12 V motor, which is conveniently operated by remote control. Supplied in lengths from 3.5 m up to 6.0 m, the robust electric wall awning virtually covers the whole range of vehicles currently available. Regardless of the awning length the same housing is used, which significantly reduces the relative weight of the longer awnings

(> 4.0 m). Details like the 100 % aluminium end caps reveal the high quality standard of the PW 1500 and contribute to a long service life. Thanks to the automatic twisting lead rail, the awning slides out and in easily and quietly. The integrated electric motor features a manual override for emergency operation.

Patented lead rail system

Easy access to the support legs, 100 % tight closing housing

Patented easy lock flipper

Secures the support legs in place – no accidental unlocking possible

Aluminium end caps

Even better resistance to shock, impact and weather. End cap is painted in housing colour

Benefits of PW 1500

- Fully integrated 12 V motor with remote control
- Aluminium end caps, resistant to shock and impact
- Patented locks on both sides of the lead rail – for perfect closing
- Support legs with Patented easy lock flipper
- Same housing for all lengths from 3.5 to 6.0 m, available with 2.75 m extension

Dimensions

Length (m)	Extension (m)	Weight (kg)	Length (m)	Extension (m)	Weight (kg)
3.50	2.75	27.0	5.50	2.75*	39.0
4.00	2.75	30.0	6.00	2.75*	48.0
4.50	2.75	33.0			
5.00	2.75	36.0	* with 3 retractable arms		

Remote control

Awning extends and retracts at the touch of a button

Fully integrated motor

Completely integrated, does not extend the housing, 12-volt model with remote control

Colour options

The awning fabric is made from hard-wearing vinyl material with a transparent acrylic coating

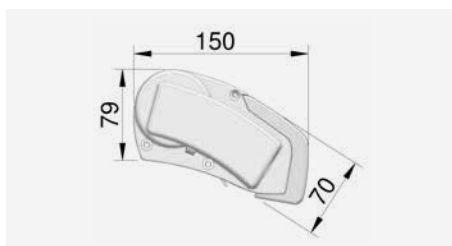

PERFECTROOF PR 2000

The basic model for roof mounting

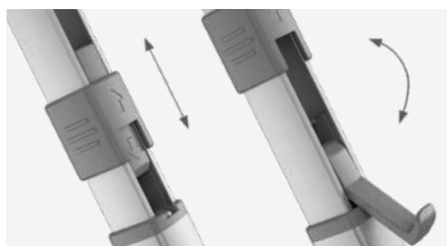

Being the flattest roof awning in the market, the Dometic PerfectRoof PR 2000 makes an ideal roof-mount solution for panel vans, smaller motorhomes and caravans. Its compact dimensions and light weight minimise the roof load, so there's still room for other accessories, such as solar panels. Moreover, it comes at a price that puts everything else in the shade, and it still provides all

key Dometic features, e.g. the seamless, high-quality awning fabric. The operation is with a Telescopic crank. The support legs are neatly stored in the lead rail and can be easily folded out by a spring lock. A wide choice of adapters helps to make the awning fit on nearly all types of vehicles.

Optimised design

Compact and lightweight housing

Patented easy lock flipper

Secures the support legs in place – no accidental unlocking possible

Telescopic crank

For manual operation of the very smooth running gear

Benefits of PR 2000

- Lightweight and compact dimensions – flattest roof awning in the market
- Ideal for panel vans and small caravans
- Support legs with Patented easy lock flipper
- Lengths from 2.65 m up to 4.5 m, extension up to 2.5 m

the awning fabric is made from hard-wearing vinyl material with a transparent acrylic coating

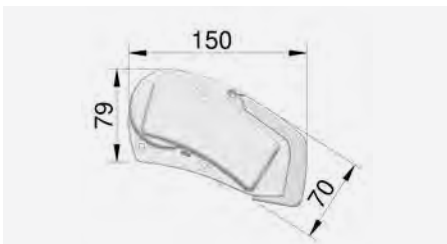

With remote control

PERFECTROOF PR 2500

High-quality roof awning – light and robust, up to 6 m long

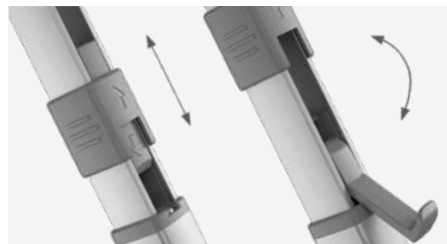

For vehicle lengths of 4.50 m and beyond there's no lighter and more compact roof awning around than the Dometic PerfectRoof PR 2500. Available in lengths up to 6 m, with an extension of 2.75 m. Its roof-mounted housing does not affect the vehicle's aerodynamics. End caps made of 100 % aluminium make the awning extra-resistant to shock and impact. Patented locks on both sides of the lead rail

ensure perfect closing as well as additional safety while driving. The fast and smooth running gear is operated with a Telescopic crank, which can easily be adapted to various vehicle heights. The PR 2500 comes with a fully integrated motor (12 V) with manual override for emergency operation.

Optimised design

Compact and lightweight housing

Patented easy lock flipper

Secures the support legs in place – no accidental unlocking possible

Aluminium end caps

Weather-proof, shock-resistant aluminium end caps – paint coated in the colour of the awning housing.

Benefits of PR 2500

The table below helps you to configure complete awning solutions for all commonly used panel vans. It gives you a quick overview of all basic components as well as the available accessories.

Simply choose the PW 1100 model in the required length and the adapter to match the vehicle you have. Don't forget to order a set of foam strip rolls for sealing the area between the awning and the vehicle. Once you've completed your basic order, add the required accessories.

ADDITIONAL PRIVACY AND WEATHER PROTECTION

SunProtect & RainProtect

What do you do when the low sun is glaring in, when heavy rain gets under your awning roof from the front or side, or when you are bothered by passers-by peering in? With our accessory products SunProtect and RainProtect you are well equipped in such situations. Once they have been fitted in place, you can sit back, relax and enjoy the most precious days of the year.

RAINPROTECT

RainProtect is made from a grey, water- and wind-proof PVC material. The front and the side panels are available in different sizes. The front panel is nontransparent, the side panels (also suitable for use left or right) have a panoramic window. They extend down to the ground to provide optimal protection against moisture.

SUNPROTECT

SunProtect is a transparent screen fabric that lets the light through and keeps the heat out. It is available as a front panel or side panel. The front panel has an extension of 1.40 metres and can be supplied for various awning widths. The side panel can be fitted either to the right or left of the awning. There's a matching SunProtect for all Dometic awnings.

CampRoom

If you have opted for a cassette awning with support legs, our CampRoom makes a great awning tent for you. The comfortable extra room in front of your vehicle can be set up in a matter of minutes, by only one person. If you cover the underside of the vehicle with a standard supplied skirt you will get a completely waterproof and wind-breaking living space.

The CampRoom is composed of two packages; one for the front (including the skirt, pegs and ropes) and one for the two side panels (including the clamp profiles, pegs and ropes).

All windows come standard with mosquito screens, roll-up PVC window (outside) and curtains (inside).

The roll-up door is always fitted on the right hand side. Two doors (left and right) are standard for lengths > 4.50 m.

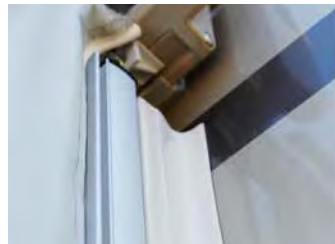

An additional triangle is included with the Ducato version for even better protection.

You can cover the lower side of the vehicle with a standard supplied skirt (keder rail is not included in the set).

The lock of the clamping profile must be turned only a quarter of a turn.

The mast profiles are fitted with rubber seals to prevent scratching and to make the area entirely waterproof. The height can easily be adjusted.

The side panel is secured to the support legs with Velcro straps and then connected with the front panel.

The cross brace adds stability to the tent.

DOMETIC REVO ZIP PRIVACY ROOM

Looking for more than just shade?

Your Dometic Revo Zip awning can be fitted with a privacy room in a matter of minutes to provide comfortable accommodation away from the elements. The side walls simply zip to the awning roof and can be attached to the vehicle by using the Limpet™ Fix System or upright poles. The front wall slides into the prepared channel on

the awning's front rail and zips to the side walls. The Dometic Revo Zip Privacy Room comes complete with curtains and side doors with mesh panels behind. Suitable for vehicles with a rail height of between 240 and 270 cm.

- Side walls simply zip to the Revo roof
- Front wall slides into channel on the Revo front rail and zips to the side walls
- Side walls can be attached to the vehicle side using the Limpet™ Fix System or by using rear upright poles
- Height of side walls can be varied to suit different height vehicles with a rail height of between 240 -270 cm
- Complete with curtains on easy-slide track
- Zip-out side and front panels
- Side doors with mesh panels behind

Dometic REVO SUPPORT RAFTER	350 – 450	0.5	9103104335

LET THERE BE LIGHT!

Warm summer nights are meant to be spent outdoors. The Dometic LED profile provides you with the correct lighting. Simply install under the awning on the vehicle wall and let there be light for a late night dinner, a get-together round with your friends, reading a good book or whatever you fancy.

Dometic LED profile

The LED profile is available in different lengths. Simply choose the right product to match the length of your awning. Installation requires just a few easy steps. Fix the aluminium profile sections to the underside of the front rail housing, attach the LED strip across the entire length, connect your outdoor light to the 12 V supply. That's it.

- Easy installation under the awning on the vehicle wall
- Perfect angle of illumination thanks to aluminium profile
- Available for all Dometic wall awnings (2.6 – 6 m long)

TRAVELING MEANS THE WORLD

ANNA HEUPEL

Even as a kid, when she'd sneak off with her parents' dusty old analog camera, it was clear that Anna Heupel's love of photography would take her beyond the familiar and out into the world. Her passion undimmed, she still gazes through a camera lens with the wide-eyed wonder of a child.

Anna and her boyfriend, Timo, are from Germany. Siegen, not far from Cologne, is both home and an ideal base from which to explore the world. Timo, who works for an industrial company, is a creative spirit "with the hands of a craftsman." Whenever there's a gap in his busy schedule, he tags along with Anna, whose photography and travel blogging constitute a full-time job. "Timo is not only the perfect travel and work companion, but a

pretty accomplished drone pilot too," says Anna with a smile.

Anna's love affair with the nomadic lifestyle began early and grew stronger over time. "I've always been on the lookout for adventure – even if it's just round the corner. To Anna, combining work with travel is a pleasure and a privilege, not to mention a dream come true.

Will the couple stay on the road? "Traveling literally means the world to us," Anna explains. "We've bonded through shared experience – be it a round-the-world trip, like in 2016, or a long weekender in our beloved VW bus." Either way, Anna and Timo are clearly in it for the long haul. As soon as a destination is ticked off the checklist, ideas for new adventures emerge on the horizon. A spectacular four-week road trip – "the ride of a lifetime"

– in a shabby camper van across Australia's west coast inspired them to buy and rebuild their own home on wheels – and then hit the road again. "Nothing, after all, beats the freedom to roam wherever the wind – and work – take you," says Timo. Plans to criss-cross Scotland in their bus are slowly taking shape. As are trips to similarly exotic locations, including the Philippines, Peru and Bora Bora. This is wonderful news for Anna's thousands of Instagram followers, who can look forward to feasting their eyes on yet another batch of stunning images in the wake of her travels. Anna and Timo appreciate the convenience – and peace of mind – offered by their Dometic products.
