stide®
seating systems

With over 40 years of industry experience, Stide is one of the leading brands offering safe, innovative, and comfortable solutions for the caravan and outdoor living sector. At the heart of our production philosophy lie five core values: Security, Technology, Innovation, Design, and Experience.

All products we develop in our modern manufacturing facilities in Turkey are certified through testing and reporting carried out by TÜV SÜD in compliance with European standards.
Seat and Bed Benches, Seat Swivel Plates, Rail Systems, and multi-purpose modules are all manufactured with a focus on both safety and long-lasting performance.

At Stide, we don't just manufacture products; we design a safe and sustainable caravan experience to accompany your journeys. In this catalog, you will discover our carefully designed solutions for caravan users and industry professionals alike.

stide®
seating systems

Stide's Sliding Door Integrated Camping Table Set is the ultimate space-saving solution for modern campers, allowing you to seamlessly integrate a functional table into the sliding door of your camper van. This innovative design ensures the table remains stored within the door trim until needed, offering both interior and exterior versatility.

- The sliding door trim is included in the set
- Indoor and outdoor adaptibiltiy
- Adjustable legs and locks for stabilty
- Locking brackets for the kitchen area
- Easy to install
- Ease of storage
- Lightweight and durable

stide®
seating systems

'Camping chairs are not included in the set'

Single seat bases are engineered to provide robust support and stability for individual seats in your vehicle. These bases are designed with precision, ensuring that your seats remain securely anchored during travel, offering peace of mind and comfort."

SINGLE SEAT BASES

The XSG-620 passenger seat is designed to offer both comfort and flexibility in vehicle interiors. It is compatible with Stide's single seat bases, allowing it to slide smoothly along the floor-mounted double rail system.

Perfect for both passenger transport and camper conversions, this seat can be configured in various layouts, accommodating 2, 4, 6, or even 8 seats to suit different vehicle needs.

- **Twin Lock:** This model features an internal twin locking system, making it particularly suitable far commercial and high-demand environments such as public transportation, ambulances, and emergency vehicles.
- **Easy Lock:** With a single lever operation, the Easy Lock model is optimized far camper vans and leisure vehicles where quick and convenient seat adjustments are necessary.
- **Swivel Option:** Available with a 360° swivel feature for enhanced mobility and versatility, especially in leisure vehicles.

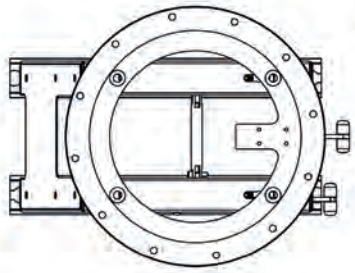
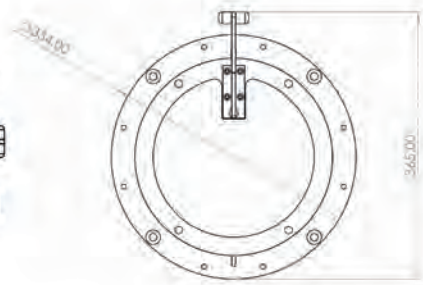
Easy Lock Swivel Combination
BAZA-A-H270-150 + ILICA-XI000





Add-On Option: 360° Swivel for Maximum Versatility

For enhanced flexibility, the Easy Lock model can be upgraded with a 360° Swivel Seat Base. This add-on enables the seat to rotate in addition to sliding forward and backward, making it perfect for campers and versatile passenger setups. The swivel functionality ensures that you can face any direction as needed, maximizing the usability of your vehicle's interior space.

Please Note: Rails and additional accessories are sold separately to provide you with a fully customized setup.
